PROFESSIONAL SUMMARY

Full Stack Web Developer with experience building and deploying web applications using React, Node.js, Express.js, and PostgreSQL. Developed and deployed Nexus-Qadr, a multi-vendor e-commerce platform with authentication, product management, cart, and order features. Skilled in REST APIs, responsive UI development, database design, and full-stack deployment.

PROJECTS

Nexus-Qadr – Full Stack E-commerce Platform

- Developed a full-stack e-commerce application using React, Node.js, Express.js, and PostgreSQL.
- Implemented user authentication, product catalog, shopping cart, order management, and role-based access.
- Integrated cloud-hosted PostgreSQL database and deployed the application using Vercel and Render.
- Designed responsive user interfaces for customers, sellers, and administrators.
- Implemented seller, customer, and admin workflows for product and order management.
